

Prospect App - Implementation Checklist

Critical Fixes (Do First)

Authentication & User Management

- ☐ Fix user registration/login flow
- ☐ Implement proper session management
- ☐ Add password reset functionality
- ☐ Create role-based access (free/pro/admin)

Database & Data Flow

- ☐ Redesign Supabase schema (see technical fixes)
- ☐ Implement proper RLS policies
- ☐ Fix all CRUD operations
- ☐ Add proper error handling

Navigation & Architecture

- ☐ Remove all duplicate tabs
- ☐ Consolidate to 6 main modules
- ☐ Implement proper routing
- ☐ Create breadcrumb navigation

Module-by-Module Implementation

1. Dashboard Hub

- ☐ Create priority task algorithm
- ☐ Implement quick stats with manual input
- ☐ Add OpenAI daily tip integration
- ☐ Build quick action buttons
- ☐ Make fully mobile responsive

2. Smart CRM

- ☐ Fix "Add Contact" functionality
- ☐ Implement contact CRUD operations
- ☐ Create drag-drop pipeline
- ☐ Add native phone/email integration
- ☐ Build follow-up reminder system

3. AI Content Studio

- ☐ Integrate OpenAI GPT-4
- ☐ Create content generation templates
- ☐ Build content calendar
- ☐ Add image generation (DALL-E)
- ☐ Implement content export functionality

4. AI Business Coach

- ☐ Create chat interface
- ☐ Build conversation templates
- ☐ Add objection handling scenarios
- ☐ Implement response saving
- ☐ Create coaching history

5. Team Collaboration

- ☐ Build invite system
- ☐ Create resource upload
- ☐ Implement team challenges
- ☐ Add recognition system
- ☐ Build team directory

6. Business Tracker

- ☐ Create manual income entry
- ☐ Build activity tracker
- ☐ Add goal setting
- ☐ Implement streak tracking
- ☐ Create journal feature

Technical Implementation

Frontend Fixes

javascript

// Component structure

/components

 /dashboard

- PriorityTasks.jsx
- QuickStats.jsx
- AITip.jsx
- QuickActions.jsx

 /crm

- ContactList.jsx
- ContactForm.jsx
- Pipeline.jsx
- FollowUpReminders.jsx

 /content

- ContentGenerator.jsx
- ContentCalendar.jsx
- ImageCreator.jsx
- TemplateLibrary.jsx

 /coach

- ChatInterface.jsx
- ScenarioSelector.jsx
- ResponseHistory.jsx

 /team

- TeamDirectory.jsx
- ResourceLibrary.jsx
- Challenges.jsx

 /tracker

- IncomeTracker.jsx
- ActivityLog.jsx
- GoalProgress.jsx

API Endpoints to Create

javascript

// Essential endpoints

POST /api/contacts

GET /api/contacts

PUT /api/contacts/:id

DELETE /api/contacts/:id

POST /api/content/generate

GET /api/content

POST /api/content/schedule

POST /api/ai/chat

POST /api/ai/generate-content

POST /api/ai/generate-image

POST /api/activities

GET /api/activities/summary

POST /api/team/invite

GET /api/team/members

POST /api/team/resources

Integration Priorities

1. **OpenAI** - Content generation, coaching
2. **Twilio** - SMS reminders (optional)
3. **WhatsApp Business** - Click-to-chat
4. **Supabase Storage** - File uploads
5. **Native OS** - Calendar, contacts

Mobile Optimization

Required Fixes

- ☐ Touch-friendly buttons (min 44px)
- ☐ Swipe gestures for navigation
- ☐ Offline capability for CRM
- ☐ Responsive layouts
- ☐ Fast load times (<3s)

PWA Features

- ☐ Install prompt
- ☐ Offline mode
- ☐ Push notifications
- ☐ App icon
- ☐ Splash screen

Launch Strategy

Beta Testing (Week 1)

- ☐ 10 internal testers
- ☐ Daily bug reports
- ☐ Feature usage tracking
- ☐ Performance monitoring

Soft Launch (Week 2)

- ☐ 100 beta users
- ☐ Onboarding flow testing
- ☐ Feedback collection
- ☐ Iterative improvements

Public Launch (Week 4)

- ☐ Marketing website
- ☐ App Store/Play Store
- ☐ Documentation
- ☐ Support system

Success Metrics

Technical Metrics

- ☐ Page load time <2s
- ☐ Zero critical bugs
- ☐ 99% uptime
- ☐ All buttons functional

User Metrics

- ☐ 70% daily active users
- ☐ <2min to add contact
- ☐ 5+ content pieces/week

- ☐ 80% task completion

Business Metrics

- ☐ 50% free-to-paid conversion
- ☐ <5% monthly churn
- ☐ 4.5+ app store rating
- ☐ 1000+ active users in 3 months

What NOT to Build

Avoid These Features

-  Automatic MLM commission tracking
-  Downline visualization without data
-  Email automation from personal accounts
-  Social media posting without APIs
-  Complex analytics dashboards
-  Features requiring MLM back-office access
-  Overcomplicated onboarding
-  "Coming soon" placeholders

Focus Instead On

-  Manual tracking that works
-  Content creation assistance
-  Simple follow-up reminders
-  AI-powered coaching
-  Team collaboration
-  Mobile-first experience

Final Checklist

Before Launch

- ☐ Every button works
- ☐ Mobile fully responsive
- ☐ 5-second tasks verified
- ☐ Error handling complete

- ☐ Onboarding tested
- ☐ Support docs ready
- ☐ Feedback system active
- ☐ Analytics tracking live

Definition of Done

A network marketer can:

1. Add a contact in 10 seconds
2. Generate content in 30 seconds
3. Schedule a follow-up in 5 seconds
4. Get AI coaching instantly
5. Track activities manually
6. Collaborate with team easily

Remember: Simple and working > Complex and broken
